

# Unlock the Potential of Tomorrow's Technologies, Today.

Celestica's Hardware Platform Solutions

Celestica's mission is to enable the world's best businesses to turn their vision into reality. We build trusted relationships and solve complex technology challenges to help our customers realize greater value, potential and outcomes.

Celestica is a global technology partner with market-led investments in the design, production and service of innovative connectivity and cloud solutions. With over 20 years' experience in the Japan market, we deliver high-quality products and services across the globe, including design services, prototyping, PCBA, system and chassis assembly/integration, commodity management, and after-market services. Backed by Celestica's global network, our Japan sites serve as a central point of contact for the local market and the rest of the world.

Our portfolio of leading-edge storage, compute, and networking Hardware Platform Solutions deliver flexibility and customization for today's most challenging applications, on-premises or in public clouds, enabling our customers to deploy innovative products faster, while lowering R&D and production costs. With our extensive experience in manufacturing and supply chain, combined with our world-class design and engineering expertise, Celestica is the right partner to help you achieve your business goals. Let's unlock innovation, together.

**\$7.25B**  
in 2022 revenue

**23,000+**  
employees worldwide

**40+** locations  
in **16** countries

## Celestica is the Innovation Engine for some of the World's Leading Brands

**8 of the Top 10** Global Cloud Service Providers / Hyperscalers

**Top 3** Non-x86 Server OEMs

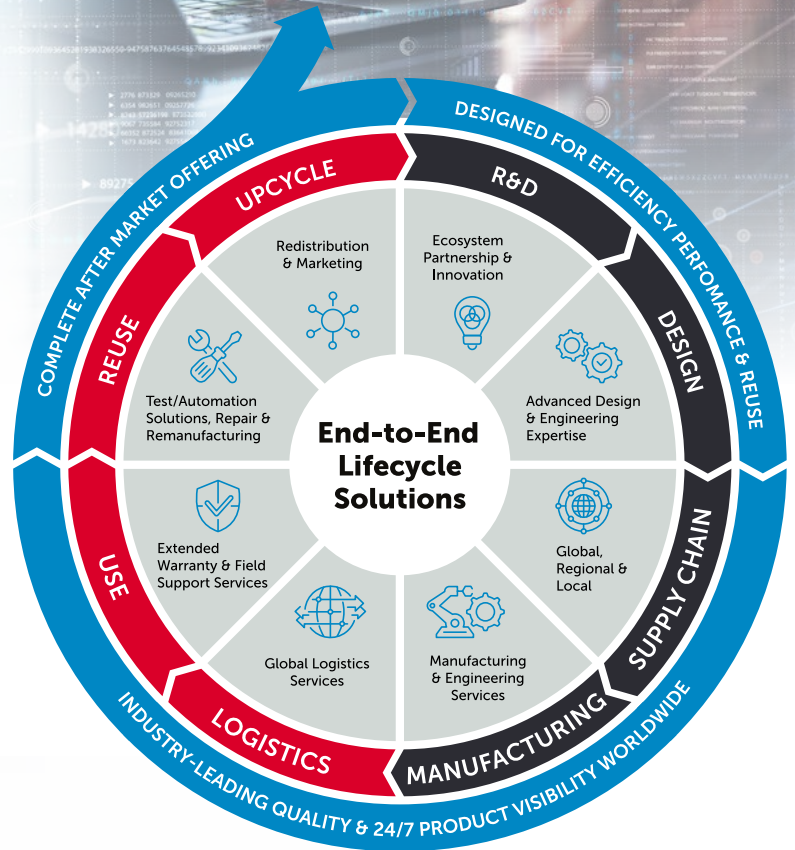

**4 of the Top 5** Storage OEMs

## Complete Lifecycle Solutions

Celestica provides a complete range of lifecycle services. From the drawing board to full-scale production and after-market services, we deliver expertise, insight and innovation at every stage of the product development process. Our flexible engagement models enable joint design, customized hardware solutions or fully-realized, ready-now hardware for your business.

Let us act as your innovation engine - so you can focus on building a better future in the markets you serve.

## The Celestica Advantage

Accelerated Time to Deployment	Flexible, Customizable Solutions	Low Total cost of Ownership	Create & Protect IP
Our ready-now, proven portfolio of hardware platform solutions enables our customers to move quickly – deploying high-quality platforms that meet the demands of today's evolving data center requirements.	Using our unique Joint Design Manufacturing (JDM) approach, we work closely with our customers to make their visions a reality. By leveraging our product portfolio, along with our design, manufacturing and deployment capabilities, we deliver custom solutions that are right for their applications and business.	At Celestica, we combine our global scale with the customer focus of a specialized partner to drive the lowest total cost of ownership. With architectural leadership and design efficiencies, we provide an optimized Capex and Opex solution that allows our customers to better focus on their business.	Our Global Design teams in China, Thailand, North America, Malaysia and India, collaborate with our customers so that they can retain their intellectual property, ensuring differentiated value across the entire product life cycle.

## Product Highlights

Celestica's portfolio of Hardware Platform Solutions delivers comprehensive, customizable support for your Enterprise and Data Center needs.

## Networking

### CELESTICA'S 800G FAMILY OF NETWORKING SWITCHES

Transforming connectivity for the future with unprecedented speed and agility

#### DS5000

2U 64-port 800GbE Data Center Switch

#### DS4101

1U 32-port 800G Data Center Switch

### HIGH-PERFORMANCE SWITCHES

Performance, flexibility and efficiency to fit your unique applications

#### DS4000/DS4001

1U 32-port 400GbE Data Center Switch

#### DS3001

2U 64-Port 100GbE Data Center Switch

#### DS3000

1U 32-port 100GbE Data Center Switch

## SCALABLE, TOP-OF-RACK SWITCHES

Open infrastructure platforms  
for future-ready data centers

**DS1000**  
1U 48-port 1GbE  
Access Switch

**DS2000**  
1U 48-port 10GbE/25GbE  
Data Center Switch

## STORAGE

Next-generation, cloud-optimized data storage solutions

**SC6100**  
2U All-Flash PCIe® Gen 5  
Storage Controller

**SC4200 (Athena G2)**  
2U All-Flash PCIe® 4.0 Gen  
4 Dual Storage Controller

**SD6200 (Titan G2)**  
4U High-Density  
Storage Enclosure

**SE4200 (Nebula G2)**  
2U All-Flash PCIe® 4.0  
Expansion Storage System

## We Take An Open Approach to Software

Avoid vendor lock-in and reduce the cost of software and support services, with an open, flexible approach to software. Celestica delivers network solutions at scale through the open SONiC NOS.

**Partnering with industry-leading companies and consortiums we deliver value through our:**

- Ecosystem partners - Open, leading-edge management and monitoring
- Technology partners - Best-in-class technology components
- Industry consortiums - Member-driven leadership to advance industry protocols
- Distribution partners - Value-add partnerships for tailored solutions and services

# Celestica's Rack Integration Services

## Optimized rack-level solutions for your unique requirements

Whether you plan to ship tens, or thousands of racks per month, Celestica has the world-class engineering teams, global footprint, supply chain, and robust portfolio of storage, compute and networking Hardware Platform Solutions (HPS) to help you meet your business needs.

### Delivering complete solutions for your business

We manage all phases of the rack integration process, from system builds, to fully functional, tested turnkey solutions (using Celestica or third-party platforms). Turn to us for efficient and sustainable distribution of your integrated rack solutions anywhere around the globe.

### Rack Level Solutions

- Celestica or multi-vendor platforms
- Design definition & implementation
- Global project management & supply chain teams
- Complex system configuration - networking, storage & compute
- Hardware integrations
- Software configuration
- Comprehensive testing
- Customer review & acceptance
- Rack packaging & FRUs
- Green circular & recovery plans

## Driving Value for Your Business with ITAD+

Celestica's unique approach to IT Asset Disposition Plus (ITAD+) services is designed to optimize hardware utilization, performance and lifetime value, creating a continuous cycle that unlocks the value potential across the entire technology lifecycle.

From repair and remanufacturing services, to test development, upcycling and global logistics management, we have extensive experience working with leading OEM and hyperscale customers to deliver high-quality ITAD+ services to meet both their financial and sustainability goals.

## Why Celestica for ITAD+ Services?

### Committed to Sustainability

At Celestica, sustainability is at the core of what we do. Our customized, ITAD+ services deliver extended product life and utilization of hardware solutions which reduces energy consumption and e-waste, driving true sustainability, greater value recovery and higher returns for our customers.

### Global Presence

With more than 40 locations in 14 countries worldwide, we bring an optimized, flexible approach to ITAD services. Our more than 3,000 engineers and 12,000 certified service professionals provide the expertise you need to support your business. With a growing multi-channel redistribution network of over 200,000 VARs and over 3,100 end-user clients in 101 countries, let us be your source for circular solutions – so you can focus on your business.

### A Trusted Partner

As a \$7B global technology company with almost 30 years of experience in the design, production and service of innovative connectivity and cloud solutions, we deliver end-to-end product lifecycle solutions to some of the world's leading brands. Our unique cost-plus, transparent engagement model delivers reliability and quality to your value-added services.
