

HEALTHTECH CENTERS OF EXCELLENCE

Unlock Potential in Your Business

You take patient care seriously.

You need a partner that does too.

A \$6.6B global provider of product lifecycle solutions, Celestica drives enhanced quality and competitiveness for some of the world's leading healthcare companies. We specialize in solutions for high-reliability applications from design and manufacturing through to delivery and after-market support. With focused expertise in complex electro-mechanical systems and ultra-high volume automated finished goods manufacturing for single use devices, Celestica helps our customers accelerate market entry, reduce total cost and advance healthcare technology to improve patient care.

Expertise You Can Trust Across the Globe

Through our certified Healthtech Centers of Excellence (COE) network and enterprise-wide global quality system, we ensure flawless execution in compliance with the most rigorous quality standards.

- Global strength and scale of a tier one manufacturing partner
- Optimized global network to deliver full product lifecycle solutions – from design to after-market support
- Localization of packaging, plastics, and metals supplier
- Flexible, semi- and fully-automated solutions for ultra-high volume manufacturing of single use devices
- In-region support including access to low-cost geographies
- Class 8 and Class 7 clean rooms
