DS3000
1U 32-port 100GbE Data Center Switch

DS4000 /DS4001
1U 32-port 400GbE Data Center Switch

DS1000
1U 48-port 1GbE Access Switch

SC4200 (Athena G2)
2U All-Flash Dual Storage Controller

SE4200 (Nebula G2)
2U All-Flash Expansion Storage System

SD6200 (Titan G2)
4U High-Density Storage Enclosure

- **Turn-Key Data Center Solutions**

- **Professional Rack Level Design**

- **Regionalized Global Footprint with 'Made in America' Supply Chain Option**

- **Complex System Configuration**

- **Waste Reduction Rack Packaging Program**

Why Choose Celestica for Rack Integration Services?

Hardware Integration
We provide full scale rack integration services using either our Hardware Platforms Solutions or third-party components, with the capacity to integrate thousands of racks annually.

Supply Chain Resilience
Celestica offers an optimized supply chain model with access to localized vendors of key components to enhance resiliency and meet your business needs. Our convenient and user-friendly processes and tools enable you to track and view your rack orders throughout the entire process.

Quality Assurance
To ensure quality and consistency, Celestica manufactures systems to the highest ISO 9001, ISO 14001 standards. Millions of our hardware platforms are currently in use worldwide, with extremely low failure rates. We take pride in our quality – and it shows.

Regionalized Global Deployment
We offer rack integration services at multiple sites around the globe, including our Richardson, Texas facility which delivers a 'Made in America' supply chain solution that will help you reduce your North American shipping costs and drive sustainability.

Test Solutions
All Celestica-integrated solutions are tested at the component, system and rack level either using our robust, proprietary test suite or by incorporating your test suite to ensure we meet your specific requirements.

Rack Design Expertise
Our team of skilled engineers can assist you in the design of rack-level solutions and network topology to ensure optimal architectural setup and application performance.

Sustainability Matters
Our industry-leading IT Asset Disposition services enables you to securely and sustainably dispose of end-of-life materials. We also offer a comprehensive waste reduction program so that you can reuse rack packaging – reducing the amount of waste going into landfills by up to 90%.

Rack Maintenance and Support
Our customer support services include field services, repair, replacement and refurbishment, data center maintenance, as well as decommissioning and upcycling services.

Global Network with Regional Rack Integration Capabilities
